

STOP SOCIALISM

★ ★ CHOOSE ★ ★

FREEDOM

SIGN THE PETITION

History shows that socialism has failed everywhere it has been implemented, because it rejects a fundamental ingredient of what makes capitalism successful – private property. The more aggressively socialism is pursued, the bigger the failure that results. History also shows that capitalism is the economic system that has brought more people out of poverty than any other system. Finally, history shows that you cannot have political freedom without economic freedom. The moment you begin to limit economic freedom, you begin to limit political freedom; the goal of socialism is to limit economic freedom, meaning the result is limited political freedom. We have seen this happen throughout history, from the Soviet Union to Venezuela, and now we even see the middle class revolting against the high levels of taxation (i.e. limit on economic freedom) required by socialism in Paris, France.

We the undersigned encourage all elected officials to join to the effort to stop socialism and choose freedom instead.
