

STOP SOCIALISM

★ ★ **CHOOSE** ★ ★

FREEDOM

Tea party groups all across the country are holding “Stop Socialism/Choose Freedom” rallies today. Our message today to our fellow Americans is as follows:

1

History shows that socialism has failed everywhere it has been implemented, because it rejects a fundamental ingredient of what makes capitalism successful – private property.

2

The more aggressively socialism is pursued, the bigger the failure that results.

3

History shows that capitalism is the economic system that has brought more people out of poverty than any other system.

4

History shows that you cannot have political freedom without economic freedom. The moment you begin to limit economic freedom, you begin to limit political freedom.

5

We are rallying for freedom to remind our fellow citizens that history has shown that socialism is a dangerous idea that has failed everywhere it has been implemented.
